ABOUT THE SHOW

A body art exhibition that fuses contemporary dance with floor acrobatics and extreme contortion. This show celebrates the human body's ultimate capacity for movement, transforming the stage into a space of fluidity, strength, and impossible shapes that defy anatomy.

- **Dynamic Acrobatics:** A choreography that utilizes both the floor and the air to create seamless transitions. It is not just about technique; it is a visual narrative where every acrobatic movement is part of an elegant dance.
- **Contortion in Motion:** Unlike static acts, flexibility here is put at the service of dance, allowing the creation of sculptural shapes that form and dissolve to the rhythm of the music.
- **Aesthetic Beauty:** A proposal focused on the aesthetics of bodily lines. The wardrobe and staging are designed to highlight the artist's musculature and agility, creating a high-end visual impact.
- **Elegant Energy:** A show that maintains a vibrant yet sophisticated pace, ideal for capturing the audience's attention at key moments of the event without breaking the luxury atmosphere
